Armistice Is Signed At 11 A. M. Today

HOSTILITIES CEASE ON ALL FRONTS THREE HOURS LATER

Terms Known to Include Provision Which Will Prevent Resumption of Hostilities. At Time Armistice Was Signed, Allied Armies Were Smashing Away on 150-Mile Front and Germany Was in Throes of a Revolution at Home.

AMERICANS CAPTURE SEDAN THIS A. M.

(By United Press)

The war is over. Germany and the allies signed an armistice at 11 a. m. today, hostilities ceasing three hours later. As Marshal Foch's terms are known to include provision which will prevent resumption of hostilities, the greatest war of all time has come to an end.

At the time the document was signed, the allied armies were smashing forward on a 50-mile front from the Scheldt to the Meuse, tearing the German defense to pieces and driving the enemy in utter rout.

The Americans took Sedan this morning and great gains were made at all points on the battle-front.

Before the terms were submitted to Germany, the kaiser was forced to apply to Marshal Foch and Admiral Weymess, as military and naval representatives of the allies, under a flag of truce.

While virtual peace was thus being concluded, Germany was in the throes of a revolution at home.

Hostilities Cease at 2:00 P. M.

Paris, Nov. 7.—The greatest war in the history of all time came to an end at 2 p. m. today. The allies and Germany signed an armistice three hours earlier on the field of battle.

The German delegation had come into the allied lines under a white flag.

Sedan, one of the historic cities in Europe, was captured by the Americans this morning after an additional advance of more than four miles.

Washington Celebrates Victory

Washington, Nov. 7.—President Wilson was informed of the signing of the armistice by the United Press today.

United Press dispatches from Paris brought the first news of the signing of the armistice to Washington. It was given to all departments where work was stopped immediately and the celebration began. A great throng gathered in front of the white house, wildly cheering and shouting. President Wilson went to the front veranda of

his home and waved acknowledgment to the crowd. The capital went wild with the news. People gathered in great throngs, cheering, shouting and singing. Army airplanes swept the skies fifteen minutes after the news came, flashing over the city celebrating the event. Big guns at Fort Myer bombed forth with joy.

News Received at Brest.

Brest, France, 6:30 p. m.—When the news of the signing of the armistice was received here late this afternoon, the city went wild with joy.

The newspapers issued extra editions while the factory whistles were blown. American soldiers were kissed and cheered by the population.

Brest is a great landing port for American soldiers in France.

Anniversary of America's Entry.

Washington, Nov. 7.—With the close of the great war at two o'clock this afternoon, America celebrated her greatest contribution to world freedom.

Here was the moral and mortal help that turned the tide of the bloodiest war of history—and peace today marks this nation's nineteenth month, to a day as co-belligerents in the struggle.

Message Passed By Censor.

Washington, Nov. 7.—The state department received an official message from Paris shortly after two o'clock this afternoon, saying the armistice had not been signed at the time that message had been filed.

The United Press message announcing the signing of the armistice and the cessation of hostilities was filed at Paris late this afternoon, undoubtedly considerably later than the message received by the state department.

Official advices here stated that the commissioners at the front were to meet this afternoon. This fact together with the transmission of the United Press cablegram which passed by the censor in Paris, showed that there was sufficient time for the cablegram to reach New York at noon, New York time, when it was received and passed by the naval censor.

BREAK WITH RUSSIA

Basle, November 7.—Germany has broken off diplomatic relations with Russia, it was reported here today, pending guaranty against implanting Bolshevism in Germany and punishment of persons concerned in the murder of Ambassador Mirbach.

PRISONERS IN HUN CAMPS

Washington, November 7.—Names of sixty-nine enlisted men in German prison camps were announced today by the war department. For the most part they are from the eastern states. No Hoosiers are included.

COLORADO VOTES "DRY"

Denver, November 7.—Based on meager reports, it appears the "bone-dry" statute has been approved by Colorado by a substantial margin. In Wyoming, a victory for statewide prohibition by 15,000 majority is indicated by the latest returns.

Dr. Emerson Barnum of Manila has been commissioned first lieutenant in the medical corps and leaves Friday to enter the medical officers training corps at Fort Oglethorpe, Georgia.

NEWS THAT WAR ENDED SPREAD FAST

Bells Are Rung and Arouse People to Momentous Occasion, and Demonstrations Begin.

WORD RECEIVED AT 11:30 A. M.

School Children Parade Streets and Homes Are Decorated—People Celebrate Many Ways.

When the Daily Republican received a flash from the United Press at 11:30 a. m. that the allies and Germany had signed an armistice at 1 a. m., European time, the news spread like wildfire to all parts of Rush county.

The Republican informed court house officials and ministers of the city, and within fifteen minutes after the glad news had been received bells were ringing and people were shouting.

People realized the import of the occasion. The thought which first came to the mind of everyone, when church bells indicated something momentous had occurred, was that the war had ended. Bulletins were posted down town and crowds of people soon gathered, discussing, some in awed tones and others boisterously, something which has been expected for several days, but which seemed too good to be true.

There were a few people who were inclined to be skeptical. They wanted more definite word because they could not believe that the greatest war of all times had ended in an hour. The significance of the news was almost too portentous to grasp.

It affected people in different ways. Some cried for joy; others gave vent to their feelings by shouting; others were silent.

There was no happier man in Rushville than Frank Comela, local shoe repair man, who was born in Italy. He got a big tub and a hammer and began making a noise in front of his shop in Main street. Not content with arousing his neighbors to the occasion, he was hauled all over Rushville in C. J. Caron's automobile, meanwhile beating the tub with one hand and waving an American flag with the other.

The demonstration grew during the afternoon. Girls employed by the Rushville Glove company formed in line and marched over town, singing and shouting.

A band of school children, led by Frank Comella's son, who carried a large American flag, marched through the streets. They carried flags and rang bells, shouting as much as their voices would permit.

MEN SELECTED ON WADSWORTH CALL

Train Schedule Received Today Calls For Their Entrainment Week From Tomorrow

TO GO ON BIG FOUR AT 12:25

Two More Listed on Motor Transport Call, Making Eighteen Who Have Volunteered

The eight military registrants who were called to Camp Wadsworth, Spartansburg, South Carolina, several days ago, were selected by the county army selection board this morning after the train schedule was that the increment shall entrain at 12:25 o'clock over the Big Four a week from tomorrow, November 15.

This will be the first regularly called quota of registrants to leave Rush county since September. The first October call for a detachment to be sent to Camp Taylor, was cancelled on account of the Spanish influenza epidemic, and the second call for twenty-three men to be entrained for Camp Wadsworth, was postponed. The quota was selected and the men are being held in readiness pending receipt of orders for them to entrain. It is expected they will be called soon since registrants are being sent to Camp Wadsworth.

Two more registrants have been listed on the voluntary induction call for motor transport men for overseas service. William H. Rettenmeier, 1032 North Perkins street, and Jess Wolung, 340 West Tenth street, have asked to be included in the call. This makes eighteen who have been listed on this call.

Physical examinations were being conducted today and twelve have been ordered to report tomorrow and the same number next Monday to undergo the physical tests. It should be stated in this connection that Earl Winship, who has twice been called and each time has been reported as failing to report, did not appear for examination because of a temporary illness which he believes would prevent him from passing. He is anxious to be accepted and is awaiting the time when he will be physically fit.

Three rulings were received from the district board this morning. R. H. Hill of Carthage and Carl G. Rogers of Lewisville, R. R. 2 were placed in class two. Walter E. Smith of 815 North Harrison street was denied a deferred class and placed in class one.

The eight men selected to go to Camp Wadsworth next week are as follows:

NOV. 9 LAST CHANCE TO CONVERT BONDS

Secretary of Treasury Announces Conversion Privilege Will Expire On That Date.

APPLIES TO FIRST 2 ISSUES

The secretary of the treasury has made the following announcement, which has been received here: "The privilege of converting four percent bonds of the First Liberty Loan converted and four percent bonds of the Second Liberty Loan into four and a quarter percent bonds expires on November ninth, 1918, and cannot under existing law be extended. The treasury has done all in its power to call the attention of the bond-holders to the existence of this valuable privilege and the date of its expiration. It is safe to assume that upon the expiration of the conversion privilege that fact will reflect itself unfavorably in the market price of unconverted four percent bonds which have heretofore been maintained substantially on a parity with the converted privilege of conversion."

FARMERS' INSTITUTE PROGRAM FOR COUNTY

Preference Given to Subjects Relating to Soil, Crops, Food Production and Conservation

FIVE MEETINGS TO BE HELD

The schedule for the Rush county farmers institute of 1918-1919, has been arranged to comply with the expressed wishes of the institute chairmen so far as compatible with economy of expense, movement of trains and available time of speakers. Preference has been given to request for subjects, relating to soil, crops, live stock, dairy, food production and conservation.

On January 21, a meeting will be held at Mays, with Fred Spurgeon as the local chairman. Mrs. Walker Thomas will give a very interesting talk. A meeting will be held at Carthage on January 22, with James B. Terhune of Carthage, as chairman. Mrs. Hortense Tapp Moore of Rockville, Indiana, and W. T. Martindale from Wilkinson, Indiana are to deliver the addresses. The following day Roy Swain of Arlington, will be in charge of another meeting, which will be held at Arlington, with W. T. Martindale and Mrs. Hortense Tapp Moore on the program. The 24th of January, at Moscow, Rae Flemming of Williamsport, will be in charge of the meeting, and Mrs. Kline Ogg will speak. The last meeting will be held at Milroy on March 1 with Charles Davis of Milroy, conducting the meeting, and Mrs. Givens Thompson of Freedom, Indiana, will deliver the address.

TRY A WANT AD

RED BLOODED MEN FIGHTERS

THEY RULE THE WORLD

Red blooded men are born leaders in every walk of life and fight intelligently with both brains and muscles. They are always live wires, smiling and full of ginger, keen, alert on their toes and ready for anything that comes their way. Work is a pleasure and they land on top every time.

You will not find a strong successful man or woman trying to plug along with poor health or weak nerves. They know better. They are wise and see to it that their blood has plenty of good fresh iron and their nerves at all times loaded with Phosphated Iron. Show me a strong, healthy successful man or woman and you can bank on it every time, their bodies are just loaded with "Iron and Phosphates". Another prominent physician says, "There is no need of anyone going through life sickly, miserable, played out, fagged and nervous when Phosphated Iron will always put energy and vigor in the body, mind and nerves." This same doctor also said, "With this system loaded with Phosphated Iron you can fight life's battle at any stage of the game and be a winner at every turn."

Mr. Run Down man or woman in any stage of life, if you feel all in your nerves are all shot, and life seems like one continual drag and drudgery from day to day, get next to yourself, wake up, take a brace Lay in a supply of Phosphated Iron and take a new lease on life. You will once again feel like a live one and face the world with the smile that wins. Are you game? To insure physicians and their patients receiving the genuine Phosphated Iron, it has been put up in capsules only, so do not allow dealers to give you tablets or pills. Insist on capsules. F. B. Relief from Eczema

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using a little zemo, obtained at any drug store for 35c, or extra large bottle at \$1.00.

Zemo generally removes pimples, blackheads, blotches, eczema, and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

Merchandise Sold Under a Money Back Guarantee Must Possess Real Merit.

Money talks. The housewife should listen only to the claims of manufacturers who back their assertions with a money back guarantee. I have found in my years of Domestic Science work that manufacturers of meritorious products employ the money-back-if-not-satisfied policy of merchandising. Such manufacturers are deserving of the housewives' patronage—and usually get it.

No matter how good a manufacturer may say his product is—if he lacks courage to offer a refund of purchase price, if buyer is not satisfied he displays a lack of faith in his goods. In such instances the purchaser assumes all risk—and there is always risk, when the maker of merchandise refuses to stand by his goods with a money back guarantee.

To make this point clear—consider the advertising of a certain brand of baking powder. The producers of this baking powder abolish the uncertainty of buyers getting full money's worth—as every can is sold under a clear cut guarantee of money-back-if-not-satisfied with bake day results.

Their advertisements state that their product is superior—they say that it is unfailing in results—pure in the can and in the food—and that it produces absolutely pure and wholesome bakings. Furthermore they assert that "You save when you buy it—and you save when you use it." The phrase is so familiar to the housewife, every one no doubt will recognize it as taken from a Calumet Baking Powder advertisement. But to get back to my subject—the importance of those printed words lies in the fact that the Calumet Baking Powder Co. put the proof before the housewife with positive bake day results. They invite her to buy Calumet on a money back trial basis. They demonstrate dependability with bake day results. They show her actual savings in real money. I have tested Calumet Baking Powder. The tests I conducted were far more exacting than could be made by the housewife and those tests have proved the truth of the Calumet Baking Powder Co.'s contentions. No housewife can afford to refuse so liberal a proposition. All should give Calumet a trial—and millions have done so. That it makes good its advertised promises is shown in the fact that housewives who put it to a test continue to use it.

THE WORK OF THE KIDNEYS is to filter and cast out waste products and poisons from the blood stream. When the kidneys are overworked, weak or diseased, the waste matter remains in the system and causes pain in side or back, rheumatism, lumbago, stiffness of joints, sore muscles and other symptoms.

When a person's kidneys are out of order, there is lack of energy, force, vigor, zeal and general effectiveness. Kidneys and bladder must properly function for anyone to enjoy good health.

Foley Kidney Pills

are prompt action and tonic in their healing and soothing effect on weak, sore, overworked, diseased kidneys and bladder.

Mrs. Mary Henderson, Mt. Carmel, S. C., writes: "Before I used Foley Kidney Pills I was troubled with kidney trouble and my left side hurt me so I could hardly get up in the morning. Pain is all gone now and am feeling fine."

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast for awhile, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant. If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning never have any headache or know a miserable moment.

Standers, Walkers, "Gets-It" for Corns

World Has Never Known Its Equal.

"What will get rid of my corn?" The answer has been made by millions—there's only one corn-remover that you can bank on—that's absolutely certain, that makes any corn

Corn-Pain Is Eased—the Corn Is Doomed!

on earth peel right off like a banana skin—and that's magic "Gets-It." Tight shoes and dancing even when you have a corn need not disturb you if you apply a few drops of "Gets-It" on the corn or callus. You want a corn-peeler, not a corn-fooler. You don't have to fool with corns—you peel them right off with your fingers by using "Gets-It." Cutting makes corns grow and bleed. Why use irritating salves or make a bubble of your toe with tape or bandages? Why putter and still have the corn? Use "Gets-It"—your corn-pain is over, the corn is a "gone" sure as the sun rises. "Gets-It" the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Mfg'd by E. Lawrence & Co., Chicago, Ill.

FORMER RUSH COUNTY PHYSICIAN IS DEAD

James P. Orr, a Very Talented Man, Expires at His Home in Lebanon, Ind.

FUNERAL TOMORROW NIGHT

B. F. Miller received a telephone call this morning announcing the death of Dr. James P. Orr, surgeon, physician and preacher, at his home in Lebanon, Ind. Dr. James Orr formerly lived in Rushville and eastern Rush county and will be remembered by many of the older people of the county. He is survived by a widow, who was his second wife, and one son, who is a physician.

Local people who remember Dr. Orr, say that he was an exceptionally talented man. He was not a minister of the gospel by profession, but he often preached and lectured in Christian churches of the county. Dr. Orr had a reputation here as being an excellent surgeon.

The funeral services will be held at the late residence tomorrow evening at 7:30 o'clock and burial will take place at Cincinnati Saturday morning. Dr. Orr was retired when he died.

Government Employee
Finds a Remedy
For Influenza

Miss Inez Burns, giving her services to the War Department, gladly tells her story of how she was attacked, and overcame Spanish Influenza.

Miss Burns says:
606 H. St., S. W.
Washington, D. C.

To whom it may concern:

While working in the War Department in Washington, D. C., I contracted Spanish Influenza which was spreading rapidly throughout the Government offices. Having a bottle of Hull's Superlative at hand I at once started in to take it regularly. Although I was quite sick for a couple days it helped me out so that I did not need be alarmed at my condition. Within a week's time I was again feeling fine, which I owe to this medicine.

INEZ BURNS.

Directions.

Go to bed at once, cover up real warm, take four doses of Hull's Superlative Compound, 20 drops at a dose every two hours. You will go into a sweat. Remain covered until perfectly dry. You will notice that aches, pains and fever have disappeared. Follow by taking 8 to 10 drops three times a day until perfectly well. Do not expose yourself or get chilled until you are thoroughly well, or a relapse is liable to take place which may be much worse than the first attack. If it does not act on the bowels in 12 hours take a strong physic.

Hull's Superlative is a root and bark remedy, rich in Peruvian Bark, fever breaker, Golden Seal, the greatest known vegetable antiseptic and other ingredients as good as those mentioned. Hundreds testify to great good received. Be sure and keep it in the house. LaGrippe comes almost at once without warning. Then is when you need Hull's Superlative.

Bond Buyers on Mettle.

Millions of subscribers to the Fourth Liberty Loan are now on their mettle.

They are face to the face with the job of completing their payments. It will take nerve, courage, and "staying power". It will take self-denial. Subscribing for the bonds, and making the first payment of 10 percent was a sign of loyalty to the Government and to the Army and Navy.

Keeping up the payments until the Liberty bonds are fully paid for—that is the real test of mettle. Anybody is likely to be carried away by the fever of a "revival meeting". It takes earnestness to live up to new principles for the rest of one's life. That is the real test. The same thing applies to the duty of "making good" our pledges for the Fourth

liberty bonds. From now until Jan. 30, 1919 a steady, sustained, effort to save and meet Liberty bond installments will indicate 24-karat patriotism and character.

Every person who signed a Liberty bond application and made the initial payment assumed an obligation of honor. To neglect that pledge or to let the subscription lapse would be a shameful thing. No right minded person will fail to carry out his Liberty loan subscription pledge, unless actual disaster makes it necessary to shift the burden on someone else.

France is Poorly Fed

Many American women who have, at the request of the food administration, expended much energy and ingenuity in their efforts to save food for the allies, have had a rude shock when their sons or husbands have written them from France that there was no such thing as a food shortage over there; that they could get all the food they wanted; and that this idea of saving food for France was nonsense.

These letters are written in good faith according to the food administration, and what they say is true—of the small part of France which the average American sees. And as few Americans ever go outside of the military zone they imagine that what they say is true of France as a whole, and never know what a great wrong they are doing the rest of the country.

The military zone, a fairly wide belt extending the length of the battle line, is plentifully supplied with food, it is true. If you are willing to pay a sufficiently high price you can get about anything you want. The presence of millions and millions of soldiers in this zone, and their willingness to pay the most exorbitant prices for food—especially is this true of the American soldier—has caused a phenomenal flow of food-stuffs to this part of France, which has left the rest of the country drained dry.

Conditions outside the area under military control, which after all is a very small part of France, are very bad, it is authoritatively stated. The civilian population must pay the same prices for food as the soldiers, or they must go without. In the industrial centers almost everyone is engaged on war work, and, receiving

high wages, can keep up with the high cost of living. But in the smaller towns and all through the the country districts the people fare very badly indeed.

They can no longer afford butter or cheese; and meat is now beyond their highest aspirations. Even potatoes, upon which they could depend in the past, are so high in price, owing to the bad crop this year, that many people cannot buy them at all.

Practically the only food which everybody can afford is bread, for the price of bread has been kept low by a government subsidy. Bread, however, is rationed, and the rations is far from sufficient to make up for the lack of other foods. Moreover, the fact that bread is rationed, and that each person has a card entitling him to 10 ounces a day, does not mean that when he presents his ticket at the door of the bakery, he is sure to receive 10 ounces. In many places last summer, the ticket brought in exchange only half the places none at all.

Toot Your Horn.

In 1907 two Detroit automobile companies filed articles of association and designed medium-priced models. When they were put on sale there was very little difference in the details of construction, and their appearance was about the same.

They had really been designed by the same engineer. He was originally employed by one of the concerns, but went to work for the other after completing most of the layouts, and on joining the second company he found positions for some of the technical staff who had worked for him on his former job.

Result: Two cars at about the same price, equally good-looking and equally well constructed.

One of the companies is going strong, yet and the other failed in a year and a half. The second company's car never caught on with the public.

The president of the first concern was an advertising expert of the national reputation who had got into the automobile game because he saw money in it. He hardly knew a jack-shaft from a fishing-pole, and had made his name by pushing the sale of labor-saving office appliances. But the nature of the product didn't matter. He understood publicity.

We are all salesmen in a sense. An office boy applying for a job is marketing his services, and the one who makes the best impression gets the job. It isn't enough to have a good commodity for sale; you must let your customer know it, and it is nothing to his detriment if you describe your product convincingly. He is not forced to buy; but it is to his disadvantage if he never learns all the merits of what you have to sell.

Belgium is delighted in having an excellent view of Germany's coat tails.

Foreign governments are developing a great deal of skill in the writing of peace notes. It is almost equal to the skill the Allies have developed in warfare.

President Wilson is acknowledged to be an excellent correspondent. Opinion, however, seems to be divided as to whether his domestic communications are as satisfactory as his foreign ones.

If America gains nothing else from the war she will at least have a greatly increased knowledge of European geography.

REGARDED AS A FAIR PRICE

Six to Eight Cents a Bushel For Husking Corn, it is Agreed.

Marion Detrick, county agricultural agent, has been advised that from six to eight cents a bushel is a fair price to pay for husking corn. A sort of a "gentleman's agreement" has been reached among county councils of defense in the section of the state containing the largest corn-producing counties that no less than six nor no more than eight cents a bushel should be paid, depending upon local conditions to a certain extent. Reports from Iowa are to the effect that farmers will pay from seven to eight cents a bushel. In Illinois the price ranges from six to seven cents. Most Rush county farmers are paying corn huskers by the day, many receiving as high as four dollars for a day's work.

Whole Anderson Township Republican Ticket is Elected

The Anderson township republican ticket was elected Tuesday by majorities ranging from 124 to 145, Frank McCorkle, who was re-elected trustee, receiving 278 votes to 133 for his democratic opponent, Wilbur G. Meek. Claud Morgan, republican candidate for assessor, received 266 votes and his opponent 142, giving him a majority of 124. A republican advisory board was elected with the following majorities: Lewis E. Harcourt, 134; Dora F. Jackman, 131; Wiley L. McKee, 134. The defeated democratic candidates for the advisory board were Claude R. Crane, who received 126 votes; Wilson I. Mercer who got 138 votes, and H. B. Wilson who received 134 votes.

ELECTED REPRESENTATIVE

Marian Hamilton of South Bend formerly of this county, was elected state representative of St. Joseph county on the republican ticket Tuesday, according to word received by relatives in this county last night. Mr. Hamilton formerly lived at Gings and his wife was Miss Laura Widau before her marriage.

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long For.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so keen-minded that they would compel the admiration of all their friends.

The vital health building elements that these dependent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powd. Ben-tan; Phenolphthalein; Oleoresin Capsicum; Kolo.

Rheumatism Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenhr, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenhr has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitious and where the patient was helpless.

Allenhr relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days. All druggists can supply you.—(Adv.) 1

XXth Century Cleaners and Pressers

A Self-Cleaning Conveyor

We are wondering if our customers fully appreciate what real quality is built into the "RUSHVILLE SPECIAL" Spreader by the use of the OPEN-DOOR, or SELF-CLEANING conveyor. You know the trials and troubles that come from the clogging of a conveyor under a manure spreader, the fouling of the slats and the general objections of this character as found in many machines.

In our spreader we have entirely overcome objections of this kind by having each section of the conveyor hinged at one edge so, as it passes back under the machine, it swings wide open and lets all accumulation fall freely to the ground. There is no clogging of this machine in the Winter time, no matter how much it freezes up. There are none of the fouling troubles that come with other endless conveyors. This is one of the vital parts of a manure spreader.

This kind of a conveyor is expensive to build, but that is not the only reason why it is found on no other machines. It is covered by basic patents and is made only by the company building our spreaders for us.

Come in and let us show you what it is and how it turns the trick. We are waiting for your call.

REAL ECONOMY IN SHOPPING NOW

Aside from the fact that the Council of National Defense has decreed that useless, senseless last-hour Christmas rush shall be done away with this year, there is an undeniable economy in doing your Christmas shopping now.

The service rendered you in having experienced, well posted salespeople wait on you adds not only to the pleasure derived in holiday shopping, but to your material gain as well. This service simply can not be given by new, inexperienced salespeople, called in as heretofore to take care of the usual holiday "rush."

To shop now is to be waited upon by clerks who know the stocks, who, because of their experience are capable of assisting you with suggestions, perhaps, to secure the things you will be most pleased with—all of which the inexperienced clerk can not do.

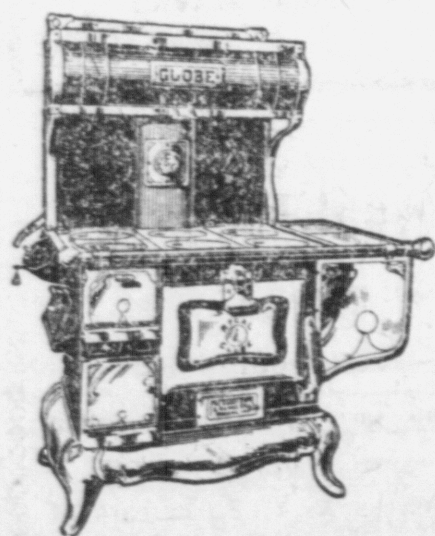

Christmas stocks are now complete. Never was the choice range so wide. Gifts being shown now, when sold, can not be replaced before the holidays. There is not one valid reason why Christmas shopping should be postponed—there are dozens of splendid reasons why it should be done early—RIGHT NOW.

SENATE CONTROL REMAINS IN DOUBT

Republicans Have Lead of One With Doubt About Three Other Contests for Seats.

MAJORITY OF 41 IN HOUSE

Republicans Have Large Margin in The House With Three Districts Not Decided.

Washington, November 7.—Control of the United States senate remained in doubt today on the face of returns from three states, where contests between the Democratic and Republican candidates continued close as the count progressed. The Republicans further increased their majority in the house of representatives, where two of the three seats from South Dakota were conceded to them. Three seats, one each in South Dakota, New Mexico, and Montana, are yet in doubt.

The standing of the two parties in the next house, without the three missing districts, is: Republicans 236, and Democrats 195, a Republican majority of forty-one. In the senate, without the three doubtful seats, there are forty-seven Republicans and forty-six Democrats.

In the Michigan senate today Truman H. Newberry, Republican seemed to be maintaining his lead over Henry Ford, the Democratic candidate in Michigan. With fewer than 200 precincts missing, Newberry had 5,300 votes more than Ford. The Michigan state Republican committee, claiming Newberry's election, declaring that the remaining districts are normally Republican.

Supporters of Senate Fall, Republican, of New Mexico, still asserted his election on the basis of scattering returns. As these reports came from unofficial sources, the contest still was placed in the doubtful class.

In Idaho, Frank H. Gooding was making deep inroads into the majority credited to Senator John F. Nugent, Democrat. Nugent's lead was only 446, with 85,000 of the state's estimated vote of 95,000 counted.

ASSESSORS WILL BE
APPOINTED IN WALKER

Although the whole democratic township ticket was elected by substantial majorities in Walker township Tuesday, there will be a republican assessor in the township after the first of next January, when the newly elected officers take office, because assessor-elect, Will Gardner, moved out to Henry county yesterday.

The appointment of an assessor to take the place of the one who disqualified himself by moving out of the county, will fall to the lot of the county auditor, Will McMillin, according to the law. Mr. McMillin is a republican and will appoint a republican as soon as the matter of Mr. Gardner's disqualification is brought to his attention officially.

Lew Lewis, democratic candidate for trustee, was elected by a plurality of forty-two votes over his two opponents, William F. Frow, republican, and Marshall Dearing, independent, receiving 184 votes. Frow's vote was 74 and Dearing's 68. The independent ticket was brought out by democrats but did not accomplish much.

REVOLUTION SPREADS
IN GERMAN PROVINCES

(By United Press.)

Copenhagen, Nov. 7.—The revolution which broke out in Kiel, has spread through Schleswig and Holstein, the provinces which Germany got from Denmark half a century ago, according to reports received here today.

Revolting soldiers are reported to have plundered the cities of Flensburg and Apenrade, and to hold a portion of the German high seas fleet.

The city of Hamburg, the greatest commercial center on the continent, also is said to be seething with revolt, and an artillery battle is reported to be raging in the streets.

The crew of the battleships Kaiser and Schleswig-Holstein mutinied and waved red flags, it was reported. They are arresting their officers, of whom twenty were shot. The mutineers said they would hold out until peace is declared.

Terms Known to Include Provision Which Will Prevent Resumption of Hostilities. At Time Armistice Was Signed, Allied Armies Were Smashing Away on 150-Mile Front and Germany Was in Throes of a Revolution at Home.

AMERICANS CAPTURE SEDAN THIS A. M.

(By United Press)

The war is over.

Germany and the allies signed an armistice at 11 a. m. today, hostilities ceasing three hours later. As Marshal Foch's terms are known to include provision which will prevent resumption of hostilities, the greatest war of all time has come to an end.

At the time the document was signed, the allied armies were smashing forward on a 50-mile front from the Scheldt to the Meuse, tearing the German defense to pieces and driving the enemy in utter rout.

The Americans took Sedan this morning and great gains were made at all points on the battle-front.

Before the terms were submitted to Germany, the kaiser was forced to apply to Marshal Foch and Admiral Weymess, as military and naval representatives of the allies, under a flag of truce.

While virtual peace was thus being concluded, Germany was in the throes of a revolution at home.

Hostilities Cease at 2:00 P. M.

Paris, Nov. 7.—The greatest war in the history of all time came to an end at 2 p. m. today. The allies and Germany signed an armistice three hours earlier on the field of battle.

The German delegation had come into the allied lines under a white flag.

Sedan, one of the historic cities in Europe, was captured by the Americans this morning after an additional advance of more than four miles.

Washington Celebrates Victory

Washington, Nov. 7.—President Wilson was informed of the signing of the armistice by the United Press today.

United Press dispatches from Paris brought the first news of the signing of the armistice to Washington. It was given to all departments where work was stopped immediately and the celebration began. A great throng gathered in front of the white house, wildly cheering and shouting. President Wilson went to the front veranda of

his home and waved acknowledgment to the crowd. The capital went wild with the news. People gathered in great throngs, cheering, shouting and singing. Army airplanes swept the skies fifteen minutes after the news came, flashing over the city celebrating the event.

Big guns at Fort Myer bombed forth with joy.

News Received at Brest.

Brest, France, 6:30 p. m.—When the news of the signing of the armistice was received here late this afternoon, the city went wild with joy.

The newspapers issued extra editions while the factory whistles were blown. American soldiers were kissed and cheered by the population.

Brest is a great landing port for American soldiers in France.

Anniversary of America's Entry.

Washington, Nov. 7.—With the close of the great war at two o'clock this afternoon, America celebrated her greatest contribution to world freedom.

Here was the moral and mortal help that turned the tide of the bloodiest war of history—and peace today marks this nation's nineteenth month, to a day as co-belligerents in the struggle.

Message Passed By Censor.

Washington, Nov. 7.—The state department received an official message from Paris shortly after two o'clock this afternoon, saying the armistice had not been signed at the time that message had been filed.

The United Press message announcing the signing of the armistice and the cessation of hostilities was filed at Paris late this afternoon, undoubtedly considerably later than the message received by the state department.

Official advices here stated that the commissioners at the front were to meet this afternoon. This fact together with the transmission of the United Press cablegram which passed by the censor in Paris, showed that there was sufficient time for the cablegram to reach New York at noon, New York time, when it was received and passed by the naval censor.

BREAK WITH RUSSIA

Basle, November 7.—Germany has broken off diplomatic relations with Russia, it was reported here today, pending guaranty against implanting Bolshevism in Germany and punishment of persons concerned in the murder of Ambassador Mirbach.

PRISONERS IN HUN CAMPS

Washington, November 7.—Names of sixty-nine enlisted men in German prison camps were announced today by the war department. For the most part they are from the eastern states. No Hessians are included.

COLORADO VOTES "DRY"

Denver, November 7.—Based on meager reports, it appears the "bone-dry" statute has been approved by Colorado by a substantial margin. In Wyoming, a victory for statewide prohibition by 15,000 majority is indicated by the latest returns.

DOCTOR COMMISSIONED

Dr. Emerson Barnum of Manilla has been commissioned first lieutenant in the medical corps and leaves Friday to enter the medical officers training corps at Fort Oglethorpe, Georgia.

NEWS THAT WAR ENDED SPREAD FAST

Bells Are Rung and Arouse People to Momentous Occasion, and Demonstrations Begin.

WORD RECEIVED AT 11:30 A. M.

School Children Parade Streets and Homes Are Decorated—People Celebrate Many Ways.

When the Daily Republican received a flash from the United Press at 11:30 a. m. that the allies and Germany had signed an armistice at 1 a. m., European time, the news spread like wildfire to all parts of Rush county.

The Republican informed court house officials and ministers of the city, and within fifteen minutes after the glad news had been received bells were ringing and people were shouting.

People realized the import of the occasion. The thought which first came to the mind of everyone, when church bells indicated something momentous had occurred, was that the war had ended. Bulletins were posted down town and crowds of people soon gathered, discussing, some in awed tones and others boisterously, something which has been expected for several days, but which seemed too good to be true.

There were a few people who were inclined to be skeptical. They wanted more definite word because they could not believe that the greatest war of all times had ended in an hour. The significance of the news was almost too portentous to grasp.

It affected people in different ways. Some cried for joy; others gave vent to their feelings by shouting; others were silent.

There was no happier man in Rushville than Frank Comella, local shoe repair man, who was born in Italy. He got a big tub and a hammer and began making a noise in front of his shop in Main street. Not content with arousing his neighbors to the occasion, he was hauled all over Rushville in C. J. Caron's automobile, meanwhile beating the tub with one hand and waving an American flag with the other.

The demonstration grew during the afternoon. Girls employed by the Rushville Glove company formed in line and marched over town, singing and shouting.

A band of school children, led by Frank Comella's son, who carried a large American flag, marched through the streets. They carried flags and rang bells, shouting as much as their voices would permit.

MEN SELECTED ON WADSWORTH CALL

Train Schedule Received Today Calls For Their Entrainment Week From Tomorrow

TO GO ON BIG FOUR AT 12:25

Two More Listed on Motor Transport Call, Making Eighteen Who Have Volunteered

The eight military registrants who were called to Camp Wadsworth, Spartansburg, South Carolina, several days ago, were selected by the county army selection board this morning after the train schedule was that the increment shall entrain at 12:25 o'clock over the Big Four a week from tomorrow, November 15.

This will be the first regularly called quota of registrants to leave Rush county since September. The first October call for a detachment to be sent to Camp Taylor, was cancelled on account of the Spanish influenza epidemic, and the second call for twenty-three men to be entrained for Camp Wadsworth, was postponed. The quota was selected and the men are being held in readiness pending receipt of orders for them to entrain. It is expected they will be called soon since registrants are being sent to Camp Wadsworth.

Two more registrants have been listed on the voluntary induction call for motor transport men for overseas service. William H. Rettenmeier, 1032 North Perkins street, and Jess Wolung, 340 West Tenth street, have asked to be included in the call. This makes eighteen who have been listed on this call.

Physical examinations were being conducted today and twelve have been ordered to report tomorrow and the same number next Monday to undergo the physical tests. It should be stated in this connection that Earl Winship, who has twice been called and each time has been reported as failing to report, did not appear for examination because of a temporary illness which he believes would prevent him from passing. He is anxious to be accepted and is awaiting the time when he will be physically fit.

Three rulings were received from the district board this morning. R. H. Hill of Carthage and Carl G. Rogers of Lewisville, R. R. 2 were placed in class two. Walter E. Smith of 815 North Harrison street was denied a deferred class and placed in class one.

The eight men selected to go to Camp Wadsworth next week are as follows:

A glass of hot water with a teaspoon-
ful of limestone phosphate in it, drank
before a meal, for awhile, will not only
wash these poisons from your system
and cure you of headache but will
cleanse, purify and freshen the entire
alimentary canal.

Ask your pharmacist for a quarter
pound of limestone phosphate. It is in-
offensively harmless as sugar, and al-
most tasteless, except for a sourish
tongue which is not unpleasant.

If you aren't feeling your best, if
your tongue is coated or you wake up with
bad taste, foul breath or have colds,
indigestion, biliousness, constipation,
or sour, acid stomach, begin the phos-
phated hot water cure to rid your
system of toxins and poisons.

Results are quick and it is claimed
that those who continue to flush out
the stomach, liver, and bowels every
morning never have any headache or
other miserable ailment.

Government Employee Finds a Remedy For Influenza

Miss Inez Burns, giving her services to the War Department, gladly tells her story of how she was attacked, and overcame Spanish Influenza.

Miss Burns says:
606 H. St., S. W.
Washington, D. C.

To whom it may concern:
While working in the War Department in Washington, D. C., I contracted Spanish Influenza which was spreading rapidly throughout the Government offices. Having a bottle of Hull's Superlative at hand I at once started in to take it regularly. Although I was quite sick for a couple days it helped me out so that I did not need be alarmed at my condition. Within a week's time I was again feeling fine, which I owe to this medicine.

DIRECTIONS.

Go to bed at once, cover up real warm, take four doses of Hull's Superlative Compound, 20 drops at a dose every two hours. You will go into a sweat. Remain covered until perfectly dry. You will notice that aches, pains and fever have disappeared. Follow by taking 8 to 10 drops three times a day until perfectly well. Do not expose yourself or get chilled until you are thoroughly well, or a relapse is liable to take place which may be much worse than the first attack. If it does not act on the bowels in 12 hours take a strong physic.

Hull's Superlative is a root and bark remedy, rich in Peruvian Bark, fever breaker, Golden Seal, the greatest known vegetable antiseptic and other ingredients as good as those mentioned. Hundreds testify to great good received. Be sure and keep it in the house. LaGrippe comes almost at once without warning. Then is when you need Hull's Superlative.

Bond Buyers on Mettle.

Millions of subscribers to the Fourth Liberty Loan are now on their mettle.

They are face to the face with the job of completing their payments. It will take nerve, courage, and "staying power". It will take self-denial. Subscribing for the bonds, and making the first payment of 10 percent was a sign of loyalty to the Government and to the Army and Navy.

Keeping up the payments until the Liberty bonds are fully paid for—that is the real test of mettle. Anybody is likely to be carried away by the fever of a "revival meeting". It takes earnestness to live up to new principles for the rest of one's life. That is the real test. The same thing applies to the duty of "making good" our pledges for the Fourth

AMERICA ALWAYS FIRST

liberty bonds. From now until Jan. 30, 1919 a steady, sustained, effort to save and meet Liberty bond installments will indicate 24-karat patriotism and character.

Every person who signed a Liberty bond application and made the initial payment assumed an obligation of honor. To neglect that pledge or to let the subscription lapse would be a shameful thing. No right minded person will fail to carry out his Liberty loan subscription pledge, unless actual disaster makes it necessary to shift the burden on someone else.

France is Poorly Fed

Many American women who have, at the request of the food administration, expended much energy and ingenuity in their efforts to save food for the allies, have had a rude shock when their sons or husbands have written them from France that there was no such thing as a food shortage over there; that they could get all the food they wanted; and that this idea of saving food for France was nonsense.

These letters are written in good faith according to the food administration, and what they say is true—of the small part of France which the average American sees. And as few Americans ever go outside of the military zone they imagine that what they say is true of France as a whole, and never know what a great wrong they are doing the rest of the country.

The military zone, a fairly wide belt extending the length of the battle line, is plentifully supplied with food, it is true. If you are willing to pay a sufficiently high price you can get about anything you want. The presence of millions and millions of soldiers in this zone, and their willingness to pay the most exorbitant prices for food—especially is this true of the American soldier—has caused a phenomenal flow of food-stuffs to this part of France, which has left the rest of the country drained dry.

Conditions outside the area under military control, which after all is a very small part of France, are very bad, it is authoritatively stated. The civilian population must pay the same prices for food as the soldiers, or they must go without. In the industrial centers almost everyone is engaged on war work, and, receiving

high wages, can keep up with the high cost of living. But in the smaller towns and all through the country districts the people fare very badly indeed.

They can no longer afford butter or cheese; and meat is now beyond their highest aspirations. Even potatoes, upon which they could depend in the past, are so high in price, owing to the bad crop this year, that many people cannot buy them at all.

Practically the only food which everybody can afford is bread, for the price of bread has been kept low by a government subsidy. Bread, however, is rationed, and the rations is far from sufficient to make up for the lack of other foods. Moreover, the fact that bread is rationed, and that each person has a card entitling him to 10 ounces a day, does not mean that when he presents his ticket at the door of the bakery, he is sure to receive 10 ounces. In many places last summer, the ticket brought in exchange only half the places none at all.

Toot Your Horn.

In 1907 two Detroit automobile companies filed articles of association and designed medium-priced models. When they were put on sale there was very little difference in the details of construction, and their appearance was about the same.

They had really been designed by the same engineer. He was originally employed by one of the concerns, but went to work for the other after completing most of the layouts, and on joining the second company he found positions for some of the technical staff who had worked for him on his former job.

Result: Two cars at about the same price, equally good-looking and equally well constructed.

One of the companies is going strong, yet the other failed in a year and a half. The second company's car never caught on with the public.

The president of the first concern was an advertising expert of the national reputation who had got into the automobile game because he saw money in it. He hardly knew a jack-shaft from a fishing-pole, and had made his name by pushing the sale of labor-saving office appliances. But the nature of the product didn't matter. He understood publicity.

We are all salesmen in a sense. An office boy applying for a job is marketing his services, and the one who makes the best impression gets the job. It isn't enough to have a good commodity for sale; you must let your customer know it, and it is nothing to his detriment if you describe your product convincingly. He is not forced to buy; but it is to his disadvantage if he never learns all the merits of what you have to sell.

Belgium is delighted in having an excellent view of Germany's coat tails.

Foreign governments are developing a great deal of skill in the writing of peace notes. It is almost equal to the skill the Allies have developed in warfare.

President Wilson is acknowledged to be an excellent correspondent. Opinion, however, seems to be divided as to whether his domestic communications are as satisfactory as his foreign ones.

If America gains nothing else from the war she will at least have a greatly increased knowledge of European geography.

REGARDED AS A FAIR PRICE

Six to Eight Cents a Bushel For Husking Corn, it is Agreed.

Marion Detrick, county agricultural agent, has been advised that from six to eight cents a bushel is a fair price to pay for husking corn. A sort of a "gentleman's agreement" has been reached among county councils of defense in the section of the state containing the largest corn-producing counties that no less than six nor no more than eight cents a bushel should be paid, depending upon local conditions to a certain extent. Reports from Iowa are to the effect that farmers will pay from seven to eight cents a bushel. In Illinois the price ranges from six to seven cents. Most Rush county farmers are paying corn buyers by the day, many offering as high as

Whole Anderson Township Republican Ticket is Elected

The Anderson township republican ticket was elected Tuesday by majorities ranging from 124 to 145, Frank McCorkle, who was re-elected trustee, receiving 278 votes to 133 for his democratic opponent, Wilbur G. Meek. Claud Morgan, republican candidate for assessor, received 266 votes and his opponent 142, giving him a majority of 124. A republican advisory board was elected with the following majorities: Lewis E. Harcourt, 134; Dora F. Jackman, 131; Wiley L. McKee, 134. The defeated democratic candidates for the advisory board were Claude R. Crane, who received 126 votes; Wilson I. Mercer who got 138 votes, and H. B. Wilson, who received 134 votes.

ELECTED REPRESENTATIVE

Marian Hamilton of South Bend formerly of this county, was elected state representative of St. Joseph county on the republican ticket Tuesday, according to word received by relatives in this county last night. Mr. Hamilton formerly lived at Gings and his wife was Miss Laura Widan before her marriage.

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long For.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so keen-minded that they would compel the admiration of all their friends.

The vital health building elements that these despondent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lactidin, Calcium Glycero-phosphate, Iron Peptonate, Manganese Peptonate, Ext. Nux Vomica, Powder, Ben-tanin, Phenolphthalein, Oleoresin Capsicum, Kola.

Rheumatism Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenhr, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenhr has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

Allenhr relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful, all traces disappear in a few days. All druggists carry it. (Adv.)

XXth Century Cleaners and Pressers

A Self-Cleaning Conveyor

We are wondering if our customers fully appreciate what real quality is built into the "RUSHVILLE SPECIAL" Spreader by the use of the OPEN-DOOR, or SELF-CLEANING conveyor. You know the trials and troubles that come from the clogging of a conveyor under a manure spreader, the fouling of the slats and the general objections of this character as found in many machines.

In our spreader we have entirely overcome objections of this kind by having each section of the conveyor hinged at one edge so, as it passes back under the machine, it swings wide open and lets all accumulation fall freely to the ground. There is no clogging of this machine in the Winter time, no matter how much it freezes up. There are none of the fouling troubles that come with other endless conveyors. This is one of the vital parts of a manure spreader.

This kind of a conveyor is expensive to build, but that is not the only reason why it is found on no other machines. It is covered by basic patents and is made only by the company building our spreaders for us.

Come in and let us show you what it is and how it turns the trick. We are waiting for your call.

SENATE CONTROL REMAINS IN DOUBT

Republicans Have Lead of One With Doubt About Three Other Contests for Seats.

MAJORITY OF 41 IN HOUSE

Republicans Have Large Margin in The House With Three Districts Not Decided.

Washington, November 7.—Control of the United States senate remained in doubt today on the face of returns from three states, where contests between the Democratic and Republican candidates continued close as the count progressed. The Republicans further increased their majority in the house of representatives, where two of the three seats from South Dakota were conceded to them. Three seats, one each in South Dakota, New Mexico, and Montana, are yet in doubt.

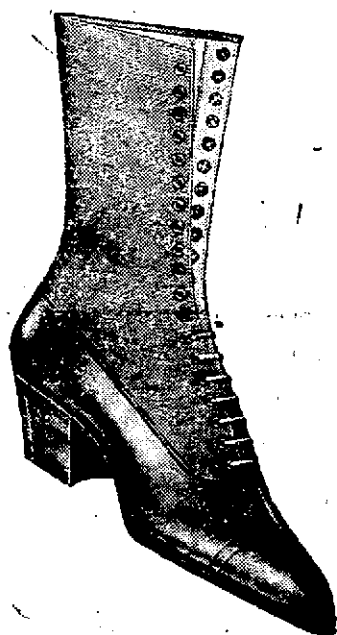

The standing of the two parties in the next house, without the three missing districts, is: Republicans 236, and Democrats 195, a Republican majority of forty-one. In the senate, without the three doubtful seats, there are forty-seven Republicans and forty-six Democrats.

In the Michigan senate today Truman H. Newberry, Republican, seemed to be maintaining his lead over Henry Ford, the Democratic candidate in Michigan. With fewer than 200 precincts missing, Newberry had 3,300 votes more than Ford. The Michigan state Republican committee, clamored Newberry's election, declaring that the remaining districts are normally Republican.

Supporters of Senate Fall, Republican, of New Mexico, still asserted his election on the basis of scattering returns. As these reports came from unofficial sources, the contest still was placed in the doubtful class.

In Idaho, Frank H. Gooding was making deep inroads into the majority credited to Senator John F. Nugent, Democrat. Nugent's lead was only 446, with 85,000 of the state's estimated vote of 95,000 counted.

REAL ECONOMY IN SHOPPING NOW

Aside from the fact that the Council of National Defense has decreed that useless, senseless last-hour Christmas rush shall be done away with this year, there is an undeniable economy in doing your Christmas shopping now.

The service rendered you in having experienced, well posted salespeople wait on you adds not only to the pleasure derived in holiday shopping, but to your material gain as well. This service simply can not be given by new, inexperienced salespeople, called in as heretofore to take care of the usual holiday "rush."

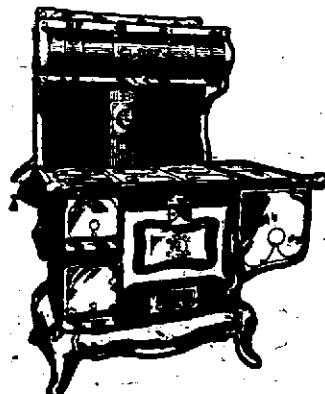

To shop now is to be waited upon by clerks who know the stocks, who, because of their experience are capable of assisting you with suggestions, perhaps, to secure the things you will be most pleased with—all of which the inexperienced clerk can not do.

Christmas stocks are now complete. Never was the choice range so wide. Gifts being shown now, when sold, can not be replaced before the holidays. There is not one valid reason why Christmas shopping should be postponed—there are dozens of splendid reasons why it should be done early—RIGHT NOW.

NOTICE TO NON-RESIDENTS

The State of Indiana, Rush County, In the Rush Circuit Court, September Term, 1918.

Mary E. Lane et al. vs. Claud Lane et al. Complaint No. 1666 for partition.

Now comes the plaintiff, by Douglas Morris, their attorney, and files their complaint herein, together with an affidavit of said Morris that said defendant, Claude Lane is not a resident of the State of Indiana; that said action is for partition and sale of real estate, and that said non-resident is a necessary party thereto.

Notice is therefore hereby given said defendant last named that unless he be and appear on Monday, December 23, 1918, at the Court House in Rushville in said County and State and answer or demur to said complaint, the same will be heard and determined in his absence.

Witness my name and the seal of said court, affixed at Rushville this 21st day of October, A. D. 1918.

DANGER AFTER SPANISH INFLUENZA OR GRIPPE

How It Can Be Avoided and Treated. Simple Rules to Be Followed. No Occasion for Panic

No need of anyone being afraid of the after effects and slow recovery from Spanish Influenza, hard colds or Grippe. If they will use common sense and start in building up their health and strength the right way. The main thing is to get the blood rich, red, and pure, so it can carry life-giving oxygen and strength to every part of the body. Impure blood is the cause of so many slow recoveries and set-backs. Doctors say: "Get the blood right and the rest is easy, that nine-tenths of all sickness is due to lack of iron and phosphates; the healthy strong, vigorous man or woman's blood is always loaded with these two life-giving elements". Physicians also claim with fresh air and nourishing food nothing equals Phosphated Iron as a blood tonic and health builder. Phosphat-

ed Iron takes hold from the first dose. Results are seen and felt; strength returns, food digests, appetite picks up, sleep is restful, there is a color in the cheeks and a sparkle to the eye that only blood charged with iron and phosphates can give. It is the duty of everyone who has had Spanish Influenza, Grippe or a hard cold to build up their system with nature's tonic, Phosphated Iron. It sure is health protection. Safety first. The results will repay you many times. Give yourself a show. Special notice: To insure doctors and their patients getting the genuine Phosphated Iron we have put in capsules. Do not take pills or tablets. Insist on capsules. Pitman & Wilson, the Druggists, and leading Druggists everywhere.

TO ADDRESS MEN'S MEETING ON SUNDAY

Senator James E. Watson Will Also Make Political Speech at Columbia Club

SPENDS 2 DAYS WITH FRIENDS

After spending two days here with friends, Senator James E. Watson went to Indianapolis today to remain until Sunday when he will address the men's big meeting at English's theater, in the afternoon. Senator Watson will also speak at the Columbia club Friday evening. He will deal with the various aspects of Tuesday's election. Discussing the returns yesterday, Senator Watson said it was very lamentable that the senate should lose Senator John Weeks of Massachusetts, who apparently has been defeated by David I. Walsh, a dem-

Senator Watson said that Senator Weeks was easily the most capable business man in the senate and that his advice and sound business judgment would be sadly missed in the days of reconstruction after the war. He declared that the election of republican senators in Delaware, Kansas, Illinois, Colorado, New Hampshire, Idaho and Missouri was regarded as certain. There are two vacancies in New Hampshire, and the election of Keyes there was believed last night to be a certainty. The election of a republican to the other seat was confirmed today.

Senator Watson went to Indianapolis today to be closer in touch with the political situation as he was very anxious to learn which party would control the house or senate, or both. Senator Watson believes the republicans will control the house by 29 votes and the senate by two.

ASSESSORS WILL BE APPOINTED IN WALKER

Although the whole democratic township ticket was elected by substantial majorities in Walker township Tuesday, there will be a republican assessor in the township after the first of next January, when the newly elected officers take office, because assessor-elect, Will Gardner, moved out to Henry county yesterday.

The appointment of an assessor to take the place of the one who disqualified himself by moving out of the county, will fall to the lot of the county auditor, Will McMillin, according to the law. Mr. McMillin is a republican and will appoint a republican as soon as the matter of Mr. Gardner's disqualification is brought to his attention officially.

Low Lewis, democratic candidate for trustee, was elected by a plurality of forty-two votes over his two opponents, William F. Frow, republican, and Marshall Dearing, independent, receiving 184 votes. Frow's vote was 74 and Dearing's 68. The independent ticket was brought out by democrats but did not accomplish much.

REVOLUTION SPREADS IN GERMAN PROVINCES

(By United Press.)

Copenhagen, Nov. 7.—The revolution which broke out in Kiel, has spread through Schleswig and Holstein, the provinces which Germany got from Denmark half a century ago, according to reports received here today.

Revolting soldiers are reported to have plundered the cities of Flensburg and Apenrade, and to hold a portion of the German high seas fleet.

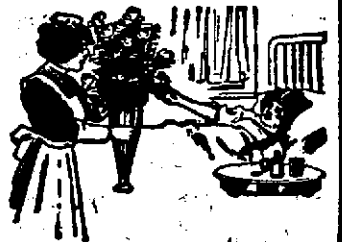

The city of Hamburg, the greatest commercial center on the continent, also is said to be seething with revolt, and an artillery battle is reported to be raging in the streets.

The crew of the battleships Kaiser and Schleswig-Holstein mutinied and waved red flags, it was reported. They are arresting their officers, of whom twenty were shot. The mutineers said they would hold out until peace is declared.
